### Radio Training Programme, 2023-2024

The six-month training programme on Radio Management at Madhab Choudhury College, in association with the Community Radio Centre, is helping to inspire students with the necessary skills and knowledge to excel in the field. The initiative not only benefited the enrolled students but also contributed to strengthening community radio as an essential platform for information dissemination and public engagement.

The key objectives are:

- To provide theoretical and practical knowledge of radio broadcasting.
- To train participants in content production, editing, and on-air presentation.
- To familiarize students with the technical aspects of radio station operations.
- To develop skills in community engagement and radio programming.

A total of six students enrolled in this training programme. The limited number of participants ensured personalized attention and hands-on experience for each trainee.

#### List of Enrolled Students

1. KISHALOY PATOWARY
2. DOLASREE PUJARI
3. ASMITA DAS
4. JAYANTA PUJARI
5. SURAJIT BHYAN
6. NISHANTJIT DAS

An assignment was conducted on dated 2<sup>nd</sup> March, 2024 as part of the Environmental Economics paper in the 6th semester, where students participated in a radio program to discuss pressing environmental issues. Given that Guwahati has recently been reported as the second most polluted city in the world, the discussion focused on the urgent need for sustainable solutions. The students collectively emphasized the importance of strengthening and expanding carbon pricing mechanisms, accelerating the transition to a low-carbon future, and achieving long-term sustainability goals. The program highlighted the necessity of collaborative efforts among policymakers, industries and the public to address pollution and ensure a cleaner, healthier future for Guwahati and the nation

The Department of Mathematics, Gauhati University, introduced a Skill Enhancement Course (SEC) titled "Microsoft Excel in Advance" for the academic session 2023-2024. This course aims to equip students with advanced Excel skills, enabling them to handle complex data analysis, visualization, and automation tasks effectively.

### Objectives of the Course

The primary objectives of this course are:

To develop proficiency in advanced Microsoft Excel features.

To enhance data management and analytical skills.

To introduce students to functions, formulas, pivot tables, and data visualization techniques.

To provide hands-on experience in automation using macros and VBA (Visual Basic for Applications).

### Enrollment Details

A total of 84 students enrolled in the course, indicating significant interest and demand for advanced Excel training. The students come from diverse academic backgrounds, mainly from Mathematics and related disciplines.
