Suggestions:

We are suffering from lack of some facilities. A toilet and a basin are very much needed for the students. A little development of the department library can be done. A screen is very much needed to display the presentation well. To make the department more beautiful a little decorating can be done such as flower pot (for freshment), some pictures related to Geography etc. If it is possible then I want the respected Principal Sir to take our class sometimes because sir teaches excellent. At the end of the every semesters, students should be rewarded for their ability to achieve their discipline, best result, highest attending in class, who is in the forefront of other activities so that the motivation of students remains. That's all I want to suggest, Thank you...
